

We now accept **TriWest (ECHO)** **Medical** insurance and are Medicaid providers under the CES, SLS, and HCBS Waivers. We are also a Program Approved Service Agency for the following Community Centered Boards: Imagine!, Denver Options, Developmental Pathways, The Resource Exchange, Envision, North Metro, DDRC, Horizons, and Eastern Colorado Services. If there is a need for services outside of these areas please let us know.

What does evidence based mean?

It means we emphasize and utilize strategies that have been proven to be effective, and that we treat each person as an individual and evaluate the evidence regarding what is effective and necessary for each individual we serve.

Our Mission:

We strive to deliver the best quality behavior supports to improve the independence, inclusion, and overall quality of life of our clients by providing evidence-based, pragmatic treatment, consultation and teaching based on the principles of Applied Behavior Analysis (ABA). Our goal is to transfer and teach skills to clients and caregivers, and to develop top-quality practitioners to expand the availability of high quality services throughout Colorado.

What we do:

Provide assessment, training, and follow-up consultation with: parents, foster parents, clinicians, staffed facilities, geriatric care facilities, school districts, teachers, children and adults.

Staff training and consultation with provider agencies regarding individuals or groups of individuals presenting challenging behaviors.

Consultation for school districts, IEP/ curriculum development assistance, and assistance with students that have challenging behaviors.

Provide educational workshops disseminating the principles of ABA, evidence-based treatments, evaluating treatment effectiveness, and function based approaches to treating challenging behavior, preference assessments, and skill acquisition.

Provide supervision for individuals seeking Board Certification in Behavior Analysis (BCBA) and Board Certification as an Assistant Behavior Analyst (BCABA).

Training and consultation with community centered boards, staffed facilities, and provider agencies, assisting in development of effective staff training, utilization, and individual behavior support planning.

Training and consultation with residential and outpatient geriatric psychiatric facilities assisting with programming for elderly residents with challenging behaviors.

Providing behavior reduction strategies, skills assessment (i.e. ABLLS, VB-MAPP), functional analysis, functional assessment, replacement behavior training, and functional language acquisition services.

Consultation and development of home/school or center based ABA therapy including activity based learning, discrete trial teaching, and natural environment teaching.

OUR STAFF:

Travis Blevins, MS, BCBA

(Executive Director) has been providing services for individuals with special needs for 14 years. Travis is a founding member and past board of director of the Four Corners Association of Behavior Analysis, a member of the Association of Behavior Analysis International (ABAI), and is a Board Certified Behavior Analyst (BCBA). He has a passion for developing evidence-based treatments, and using empirically validated interventions to increase the independence and inclusion of individuals with special needs. Travis is committed to disseminating the principles of ABA, and the transference of pragmatic technology to administrators, care-givers, parents, staff, and family members of individuals with disabilities. Travis is dedicated to helping people meet their full potential by developing strategies to reduce behavior problems and teach appropriate communication.

Juliet Conners Blevins MS, BCBA

(Clinical Director) Juliet has been providing a variety of ABA services for 15 years. She has a Masters degree in Psychology with a major in ABA. She has published work in the Journal of Applied Behavior Analysis (JABA), and has served as a guest reviewer for JABA. She has given numerous behavior analysis presentations at conferences including the International Association for Behavior Analysis, the International Society for Autism Research, Florida ABA, Tennessee ABA, and N. Carolina ABA. She is a member of the International ABA Association, and is Board Certified. She has taught an ABA course at the University of Florida. Her research has been referenced in two of the most widely used ABA textbooks. Juliet has experience ranging from providing individual ABA therapy, to serving as a Consultant to many organizations and autism providers. Juliet strives to assist individuals and families with increasing skills and reducing challenging behaviors. She has expertise in ABA therapy, functional analysis, preference assessments, treatment of challenging behaviors, and skill acquisition, including but not limited to language and social/relationship/play skills, and independent living skills.
